Terracotta Masks Set of *3*

The Terracotta Masks Set was created by Thai artist Arjan Deng, who is known for his one-of-a-kind ceramic statues of emotionally evocative faces. This is his interpretation of a trio of characters: each face with a morphing personality. Sitting atop black iron bases, the faces have an antique terracotta glaze on them so each will vary from piece to piece, which makes each set unique. The rust and tan sculptures will be whimsical elements in a space.
