Cromwell

Bauhaus Grande Plie

Man becomes the machine in our Bauhaus figure collection. Inspired by Schlemmer's "Triadisches Ballet", our figurines take Schlemmer's avant-garde aesthetic and the idea of man as machine and shows the heart behind our human impulses. This highly stylized collection illustrates the Bauhaus ethos and displays the human body as abstract art. The play on Schlemmer's fantastic costuming is seen here in each piece. Available in five unique sculptures all constructed from a mix of cast iron, iron wire, and sheet brass, with painted gold details.
