Cromwell

MacArthur Park Thurston Bunching Bookcase

Bookcases are not limited to books. Many of us enjoy celebrating our love for art, or displaying unique pieces acquired via our travels, or showcasing collectables. With this in mind, we offer the bunching bookcases, shown here in the 49 inch width which can pair with the 22 inch width. With the plinth base and straight sides, there are numerous configurations including next to the media console. The top shelf is stationary to ensure proper stability and the remaining four shelves are adjustable or removable. Grommets in the base ensure media cords are out of sight.
