Cromwell

Echo Canyon Upholstered Bench

The Echo Canyon Upholstered Bench reflects the same refined craftsmanship and warm character that define the Echo Canyon collection. Framed in oak with a softly weathered faded oak finish, it showcases the subtle artistry of antique-inspired wood finishing. The tailored, tufted cushion offers a comfortable and inviting seat, while the exposed wood structure and thoughtful detailing echo the sculpted elegance found throughout the collection. A versatile accent at the foot of a bed, along a hallway, or in a living space, the bench brings a sense of understated sophistication to any setting.
