Jacques Bachelors Chest in Dyed brown Burl

Step into the world of modern design with the Jacques chest. Its clean lines, bold contrasts, and minimalist elements define its contemporary charm, making it a statement piece that seamlessly blends with contemporary interiors. The piano black lacquer accents provide a striking contrast against the dyed brown burl veneer, creating a visual harmony that captivates the eye. This juxtaposition of materials adds depth and drama, making the chest a true work of art. Brass accents not only enhance the aesthetics but also elevate the chest, giving it an air of elegance that complements its contemporary design.
