Clifton Grey Wenge Chest of Drawers

One gets to the point of having to put away ones clothes! Where better place than our Clifton chest of drawers. It is large enough to be useful, but not too Large to dominate a room. Finished in lovely grey wenge, trimmed with iron and with iron drop-ring handles the Clifton is masculine and well finished. On a practical note the decorative plinth that raises the chest from the floor makes the job of cleaning much easier. Another wonderful piece by William Yeoward!
