Tamarisk Poster Bed

A timeless silhouette reimagined with bold materiality, the Tamarisk King Bed evokes heritage craftsmanship and quiet grandeur. Crafted from solid acacia wood and finished in our richly toned Medium Spain Walnut, this bed features intricately turned posts and a gently arched, panelled headboard that adds warmth and depth to the form. The natural character of the acacia wood is enhanced by the finish, bringing out the unique grain patterns and organic beauty inherent in each piece. Stately yet approachable, the Tamarisk Bed makes a commanding statement in the room while remaining refined and versatile.
