Cromwell

Echo Canyon Double Dresser

The Echo Canyon Double Dresser blends relaxed sophistication with meticulous craftsmanship. Built from oak and finished in the collection's signature Faded Oak, it highlights the natural beauty of the wood through subtle distressing and gently rounded contours. The soft serpentine front creates a graceful silhouette, while recessed drawer fronts keep the look clean and understated. Twelve ring-pull handles in a muted metal finish add a touch of refinement without overpowering the design. Spacious, smoothly gliding drawers provide generous storage, making this dresser both elegant and highly functional. Thoughtfully crafted, it brings a warm, elevated presence to the bedroom.
