Stone Ridge Upholstered Counter Stool

The Stone Ridge Upholstered Counter Stool blends transitional warmth with subtle industrial detail. Crafted from solid acacia wood in the Tully Light Acacia finish, its clean lines are highlighted by exposed stainless-steel joinery. The curved upholstered back and softly padded seat offer comfortable support without adding visual weight, while a protective metal accent band reinforces the footrest and adds a refined material contrast. Balanced and versatile, the stool brings sculptural ease to kitchen and bar settings. Available in Bar Height also
