Doppler Ladder Back Arm Chair

The Jonathan Charles Doppler ladderback arm chair is a masterful example of the power of simplistic lines and superior craftsmanship. Plush, tie-on cushions upholstered in creamy oatmeal performance fabric invite the beholder to sit and distill in the benevolence of a quiet moment or a delectable meal.

Formed out of stripped oak finish, each grain of wood pays homage to its earthly origins. With an intricately woven rush seat positioned at the heart of this exquisite chair, comfort and warmth are inescapable.
