Cromwell

Graupel Chalk White Square Cocktail Table

The opulent Graupel square cocktail table by Jonathan Charles is a luxurious showstopper for gathering spaces. Traditional European design meets contemporary sentiments in Graupel clipped corner design featuring angled edges bolstered by a pair of square tapered legs with fluting. A hand-carved apron adorned with delicate blooms hugs the inlay glass top, through which one can admire the intricate cane inlay design of a bottom shelf. Nimbus's oak frame is finished in Jonathan Charles' signature washed Nordic wheat with light distressing that enhances its hand-carved features.
