Cromwell

Hattie Mirrored Console Table

The Hattie Console Table is a refined interpretation of classical design, crafted to bring richness and depth to traditional interiors. Featuring a warm Celejeria veneer on walnut, this piece is accented with a sculpted stone top showcasing soft veining and a shaped profile. Turned column legs, resting on rounded bun feet, frame a mirrored back panel that adds dimension and soft reflection. The gently curved lower shelf provides a graceful platform for display, balancing beauty with function.
