Skookumchuck Madrona Burl Desk

A showstopper of Jonathan Charles' Water portfolio, the Skookumchuck desk stands apart from a world of standardized choices. Inspirational design elements lead with a mesmerizing butcher block top honed from Madrona burl finished in smoke gray. Organically textured stainless steel straight line legs finished in satin white brass offer delightful contrast while four drawers lined with supple Moore & Giles Hudson smoke leather provide interior storage. With an alluring surface and contrasting forms, Skookumchuck is sure to captivate audiences in contemporary interiors.
