Fjord Dining Chair

The Fjord Dining Chair effortlessly blends casual contemporary and coastal aesthetics with its light, airy design and artisan details. Crafted from oak solids in a white-washed cerused oak finish, its frame highlights the natural beauty of the wood while showcasing a cane panel back for a breezy, textural touch. Designed for both comfort and style, the chair features an upholstered seat and a removable kidney pillow, both covered in a neutral performance fabric for durability and easy maintenance. The X-stretchers are accented with rope ties, adding a subtle nod to coastal craftsmanship, while a scooped handle pull on the chair back ensures effortless movement. Whether in a relaxed dining space or a refined coastal retreat, the Fjord Dining Chair brings warmth, texture, and timeless charm to any setting.
