Cromwell

Terra Sideboard

The Terra Natural Sideboard is a celebration of tonal richness and artisanal precision. Framed in solid oak with a luxurious Warm Chocolate Apricot finish, the piece exudes warmth and depth, balancing sculptural form with natural beauty. Its four doors are adorned with radiant straw marquetry, meticulously hand-laid in a symmetrical sunburst pattern that shimmers with organic elegance beneath a protective acrylic finish. Sleek metal legs rise seamlessly into the door fronts, creating a refined visual rhythm and grounding the piece with modern edge. Inside, adjustable shelving provides ample storage for dining or living spaces, while soft-close doors add a quiet layer of luxury to the experience.
