Celeste Drinks Cabinet

The Celest Bar Cabinet is a radiant fusion of craftsmanship and cosmic beauty, featuring an intricate front design created through the eggshell inlay technique, forming a mesmerizing celestial pattern that shimmers across a deep, high-gloss lacquered surface. Framed in a sleek, contemporary profile, Celest opens to reveal a mirrored interior with a glass shelf, integrated lighting, and dedicated stemware racks—elevating both function and visual drama. A concealed drawer and pull-out tray provide additional storage, making this piece as practical as it is sculptural.
