Cromwell

Maxstoke Bronze Floor Lamp

A nod to Americana and the utilitarian leanings of our country's colonial era, the Maxstoke Bronze Floor Lamp has an adjustable arm that is so appealing it would be just as brilliant in an office setting as in a living room. The design of this dark version of the popular arc lamp, which is made of metal, will complement mid-century modern and modern farmhouse style interiors. The beige shantung shade swivels and adjusts to make this black floor lamp a book lover's go-to illumination.
