Milione Small Vase

Our Milione Small Vase is made by a group of elderly women who live at the border of Burma and Thailand. The black terracotta vase has a white glazing and tiny green leaves, each applied by hand to the side of the vase. This white vase is truly an artisanal piece, as each leaf is hand-glazed with a very subtle green glazing. We also offer the Milione in green in medium and large sizes, and in blue in all three sizes.
