Lawrence Sand Vase Set of 2

Pale peach with subtle swirls of white bring the Lawrence Sand Vase Set its pretty personality. The two decorative vases have tone-on-tone ridges and valleys along their surfaces, and the slight difference in shapes and sizes makes the peach vases terrific for pairing in an artful vignette. They are made of mouth-blown glass with a coral layer overlaid with light coral and splashes of white glass. Once the glass is blown, the vase is shiny, so our artisans softly sandblast the surface to achieve that wonderful matte texture.
