# Cromwell

## Peanut Large Vase

Who knew an old-world edible could inspire such a chic accessory? The artisans who created the Peanut Medium Vase, of course! This complex beige vase has multi-layered ornamentations that make it so painstaking to create. First, there is the fluted shape of the vase's body; then there is the bumpy patterning applied in large and small shapes to mimic the streaks in a peanut shell. The ivory glaze on the ceramic is applied so that the natural color of the material shows in places for even more texture

### Peanut Large Vase
A2 1200-0743

### Dimensions
230 X 230 X 430MM HIGH

### Status
NOT IN STOCK
