Auden Brass Demi Lune Cabinet

The Auden Brass Demi-Lune Cabinet is an exemplar of artistry for a number of reasons. The three metal doors are carved and clad in metal before they are fitted to the piece, and the tiny nail heads that run along the rim of the top band and where sheets of brass meet are gently hammered in by hand. All three doors have push-to-open hardware and the interior is white. This brass demi-lune cabinet will shine from its spot in a room, thanks to the swirling pattern and the gleaming finish
