Olisa Rope Desk

An earthy alternative to rattan and wicker, the Olisa Rope Desk is covered in braided abaca rope to bring a natural elegance to a room. The dexterity required to wrap a piece of furniture so skilfully makes this tan desk special. The artistic quality of this rope-wrapped desk makes it a stunning choice for a home office or a business-formal office in which style matters. This desk comes with a glass top that fits into the outer rim of the top and there is a beige finish inside its drawer. Aimee Kurzner designed this desk.
