Cromwell

Nubia Green Accent Table

The Nubia Green Accent Table is like a beautiful chess piece with its turned column rising a round base that echoes the shape of the top. The steep bullnose on the underside of the top is also repeated, in reverse, on the base. Because this accent table is made of natural evergreen marble, the veining on each one will be unique. The top, base, and column are shipped together in three pieces

Nubia Green Accent Table
