Passementerie White Marble Drinks Table

The Passementerie Drinks Table is a sculptural statement piece crafted from exquisite Banswara marble, known for its striking white surface with subtle purple veining. The tall, slender pedestal is carved to mimic two interconnected tassels—one rising toward the tabletop and the other descending toward the floor, the two cinched in the middle to create a captivating silhouette. The white table measures just over 27 inches tall while the top is 11 inches in diameter
