Minerale Green Onyx Accent Table

The Minerale Green Onyx Accent Table exhibits natural beauty and refined craftsmanship. Made from richly patterned green onyx, striking veins of green, gray, and beige flow along its surfaces to make each table unique. The square table has an angular design with a chamfered top that descends into a well-defined apron, a receding quality that is mirrored by its legs. At 21 inches tall, the marble table will add significant texture to its spot in a room.
