Dezi Console Table

The Dezi Console Table has a top set with natural travertine tiles arranged in a stacked dark-and-light pattern with lines of brass inlay running throughout. The effect of the intermingling of materials is a pop of brightness as the natural light shines on the metal and a hint of warmth as the stone absorbs it. The top on the gold console table is supported by clean-lined legs that are made of iron and connected by an x-shaped stretcher
