## Ballyregan Brass Accent Table

The Currey and Company Ballyregan Brass Accent Table is made of cast aluminum with a warm antique brass finish and tremendous winning style. The gold accent table is named after Ballyregan Bob, an iconic modern greyhound from England who set the world record for the most consecutive victories in professional dog races during the mid-1980s. The stippling on the surface of this piece represents the artistry of the highly skilled artisans in the foundry where it was made.
