Agora White Travertine Console Table

The Agora White Travertine Console Table draws inspiration from classical Greek design. Its white travertine top and bottom shelf have dynamic veining that adds natural texture to the piece. The hourglass-shaped legs give the table a sculptural presence, while a stretcher with decorative orb detailing adds an extra layer of interest. Finished in a rich bronze, the metal frame contrasts beautifully with the light color of the stone, which will vary from piece to piece.
