Samsara Wall Sconce

The Samsara Wall Sconce is made from thick reeds of rattan that gracefully curve up to hold the two bulbs. Bending rattan this sturdy takes great skill and effort. In order to keep the aesthetics of the brown chandelier clean, the candle sleeves and hardware are in a saddle tan finish, and the thinner reeds that wrap these in place are tonally complementary. The Samsara will be a dynamic element in a coastal setting and is a strong element in a natural material story
