Aviary Right Gold Wall Sconce

The Aviary Gold Wall Sconce, Right, is a gleaming example of sophisticated biophilic design. Inspired by an antique fixture, the very tall sconce at 34.5 inches high has flowing leaf and floral motifs in a Swedish Gold finish. The Gustavian-inspired color matches the tails of birds perching within the foliage. Originally carved by a sculptor, they were carefully recreated out of composite to match the original works of art. The single bulb is dimmable
