Meraki Mother of Pearl Table Lamp

The Meraki Mother-of-Pearl Table Lamp was designed by Pam Bailey and Christina Pomroy to be a luminous element in a room. The brilliance of the mother-of-pearl columnar body will bring sheen to a space even when the lights are switched off. Each piece of the natural material is cut and hand-applied, and the white lamp has a textural feel because the thickness of the shell varies from piece to piece. The gold finish on the metal teases out the warmer tones in the material and the off-white shantung shade echoes the pale swaths of the shell.
