## Zyphyrine Table Lamp

See this item in our Atlanta, High Point or Las Vegas  
showrooms!

The Zyphyrine Table Lamp has a striking fluidity that stems  
from the flowing shape of the body that is made of blown glass.

There are gold speckles sprinkled throughout the material,  
which adds a subtle textural feel to the clear lamp. The antique  
brass on the metal base and hardware draw out the flecks in the  
glass, as does the finial in the same finish. Because blown glass  
is so unique from creation to creation, there will be subtle  
differences in each of these fixtures.
