Edwell Whitewash Table Lamp

The Edwell Whitewash Table Lamp has a shapely body that has been hand-carved from wood to create a textural pattern, the organic shapes bringing the slim hourglass form a dynamic interest. The pattern is accentuated when the whitewash finish gathers in the crevices on the lamp and is wiped clean on the peaks that swim along the surface. A design detail is the finial that has been hand-carved and finished to match the lamp's body. Please note the solid wood is subject to cracking in dry environments.
