## Lapis Blue Table Lamp

The Lapis Blue Table Lamp has a gleaming glass body on which streaks of white, deep blue, and iridescent copper twist together to create a mesmerizing Easter-egg effect. Fitted with a pleated ombré blue shade, the body was inspired by the tallest vase the prominent French glassmaker and designer Charles Schneider ever made. The swirling pattern brings the lamp a strong sense of movement achieved through a painstaking combination of marbling and glass-fusing techniques, which are difficult to do in tandem.
