Kenmare Table Lamp

The Kenmare Table Lamp has an earthen-toned terracotta body with a textured antique brown glaze and ribbing to look aged. The distressed feel the treatments achieved bring the table lamp tremendous personality. The shade has a double layer of self-trim on the top and bottom. The hardware, finial, and double pull-chains are in an antique brass finish, and the fixture has two bulbs for greater brightness. Because the glaze is hand-applied, there will be slight variations in the surfaces from piece to piece.
