Munroe White Table Lamp

The Munroe White Table Lamp is a nod to minimalism that reflects the Art Deco style popular during the 1920s and 1930s.

It has a compact footprint, though it is on the tall side at 32 inches high. The telescoping body, made of white marble with gray veining rises from an X-style base in an antique brass finish, will vary slightly from piece to piece because it is made of natural stone
