Museum Desk Lamp

The Museum Desk Lamp draws from the iconic designs of the mid-century modern era, which was characterized by clean lines, organic forms, and a focus on functionality. Made of brown marble with ivory and cream veining, the lamp longer than it is tall. The woven rattan shade fitted to the two-light lamp and the pair of pull-chains are also reflective of the era. The metal in a dark bronze finish coordinates with the marble, which will vary slightly from lamp to lamp.
