Kora Blue Table Lamp

The baluster shape and tailored stripes painted on the Kora Blue Table Lamp bring it a classic feel that is echoed in the shade. The porcelain body is white where it is left unpainted, the celadon and brown glazing defining its timeless style. The very thin brown line that divides the implied blue base at the bottom from the white is repeated on the shade to make this a cohesive design. The brushed brass cap that sits just below the shade matches the round finial on this lamp.
