## Stanhope White Table Lamp

The Stanhope White Table Lamp has an elliptical shape honed from white marble with dark gray veining that is echoed in the larger oblong shade. The base is an architectural-like design detail, as the slightly larger oblong disc of black metal sits on tiny feet and is topped with a smaller elliptical shape that forms a plinth. This makes the lamp feel as if it is floating. The hardware matches the base and the finial is white marble that complements the lamps slim column.
