## Catania Antique Blue Drip Table Lamp

Made of hand-built terracotta, the Catania Antique Blue Drip Table Lamp has tremendous Mediterranean personality. Because the pale ivory color is slathered on by hand and the blue is dripped by an artisan, each color that contrasts the hues of the raw terracotta will bring significant variations to each lamp. With an appearance that looks centuries old, the sizeable jar-shaped body, which measures two feet in diameter, is contrasted by the flaring modern empire shade.
