Cromwell

Eden Floor Lamp

The Eden Floor Lamp has a tall rectangular column made of seagrass that has been twisted, painted black, and woven into an gingham pattern—all of the steps achieved by hand by artisans. The heavily textured surfaces flow up from a minimal wood base, also painted black. The lamp is topped with a linen drum shade that draws out the lighter tones in the natural material, which is fastened by a finial that is also covered in matching seagrass.
