Sea Fan Bowl Chandelier

Sprays of wrought iron in a gold gilt finish flutter up to form the shade of the Sea Fan Bowl Chandelier, designed by Aviva Stanoff. She says of the inspiration for the design of this gold chandelier, “When I had my DNA test done, it turned out I am 12% mermaid! As a native Californian, the sea has always been by my side and has kept my secrets. I have a deep reverence for nature and particularly the ocean, and sea fans that live underwater remind us that we live among tides, that life is cyclical, and that there is beauty in believing in magic.” We also offer the Sea Fan as an arm chandelier, pendant, and wall sconce.
