Golden Eucalyptus Rectangular Chandelier

The Golden Eucalyptus Rectangular Chandelier in the Aviva Stanoff Collection is a nature-inspired gold chandelier made from metal in a contemporary gold leaf finish. Stanoff says of this family of products, “Being a California native, eucalyptus has always surrounded me. The scent is smooth, minty and elegant, always evoking a sense of home and shelter. With the products in this eucalyptus family, which includes this gold chandelier, we pulled branches from mother nature's gardens for inspiration.” We also offer the Golden Eucalyptus as a wall sconce.
