## Spiritus Pendant

Inspired by woven bags in Paris, we conceived the idea for the Spiritus Pendant with a shade stitched in a mix of wicker and rattan. A detail of note is how the shade is not perfectly woven. This is by design, as the larger strands of rattan are stitched into the more uniform wicker strands to form organic shapes that bring the shade even more texture than it would have had if it had been made from one material. The metal hardware on the Spiritus is in a Carafe Brown finish.
