Cape Verde Orb Chandelier

Clarence Mallari designed the Cape Verde Orb Chandelier: "With myriad books available at our Currey library, jewellery books are always a good resource for me. This round rattan chandelier was inspired by a glass bowl by Lalique. The orb chandelier took shape when I echoed the pattern etched along the glass to with the natural material that was woven to create the shade. I feel this design has true harmony." The hardware on the Cape Verde is in a mix of silver leaf and smoke wood finishes.
