Serilana Large Silver Chandelier

One of the graceful armed chandeliers in our line-up, the Serilana Large Silver Chandelier joins our smaller version. Taking a traditional shape and paring it down to its essence was Clarence Mallari's goal when he designed these silver chandeliers. The arcing metal arms extend from a central orb to make sharp points as they rise toward the candle sleeves. This, the antique silver leaf finish, and the natural cat's eye stone droplets coalesce to enhance the beauty of this fixture.
