English Oak Chandelier

The English Oak Chandelier, designed by Clarence Mallari, is a nature-inspired design with a whimsical profile. Made of wrought iron in a gold leaf finish, the leaves are cut and pressed into life-like shapes. Mallari was inspired by the autumn leaves that fall each year from giant oak trees. The integrated LED strip that illuminates the fixture allows it to float because the aircraft cable from which it hangs powers the light source, making chains or rods unnecessary
