Nimes Chandelier

New in the Suzanne Duin Collection, the Nimes Chandelier is infused with the inimitable French flair she is known for. Both the double-bell shape and the ornamental balls that dangle from the bottom of the scallops express the quintessential charm for which the South of France is renowned. The frame, made of wrought iron in a contemporary gold leaf finish, is partially wrapped in natural Lampakanay rope, as are the tiny globes that hang beneath it.
