## Maypan Pendant

As graceful as the fronds that flow from the crown of the palm tree after which it is named, the Maypan Pendant has weeping limbs of petals made of bleached coconut shells held in place by a wrought iron frame finished in coco cream. The color of the metal is so in sync with the natural material, the beige pendant looks as if it is a living specimen.

### Maypan Pendant

A2 9000-1265

### Dimensions

508 X 508 X 645MM HIGH

### Status

NOT IN STOCK
