Cromwell

Marquise Oval Gold Chandelier

The Marquise Oval Gold Chandelier is made of slender wrought iron wires in a Luxor gold finish that brings the metal a speckled texture. Inspired by an earring from the mid-century era, the crown-like chandelier has abstract leaf designs that flow along the frame, which are fitted with oblong pieces of clear glass to enhance the glow. This is a sizeable eight-light chandelier at 40 inches in diameter. The Marquise is dimmable
